

Brais Cabo Felpete

SUMMARY

Motivated and highly skilled software engineering student seeking challenging opportunities to develop skills and contribute to the success of an innovative and collaborative organization. Dedicated to continuously improving knowledge and expertise in software development, with a passion for staying up-to-date with the latest trends and advancements in the field.

EDUCATION

Double Degree in Software Engineering and Computer Engineering, Rey Juan Carlos University

September 2020 - May 2024 · Madrid, Spain

- Specialized in Software Development with a strong focus on hands-on learning and practical application of programming concepts.
- Maintained an exceptional academic record with a GPA of 8.53, placing in the top 5% of the class.
- Received 10 Mention of Honor awards for outstanding performance in relevant courses such as Web Application Development, Object Oriented Programming, Advanced Data Structures, Operating Systems, Declarative Programming and Computer Networks.

WORK EXPERIENCE

Robotics and Programming Teacher, Becani S.L.

June 2021 - September 2021 · A Coruña, Spain

- Facilitated a collaborative learning environment by encouraging active participation and constructive feedback from students.
- Improved communication and public speaking skills through regular presentations to groups of students and parents.

SKILLS

Programming Languages: Java, Spring Boot, Angular, C, Python, React, Shell Scripting and SQL.

Technologies: GitHub, Docker and Linux, with a strong understanding of their implementation in software development.

Soft Skills: Strong communication skills, a resilient attitude, a passion for independent and continuous learning, and a collaborative mindset for effective teamwork.

LANGUAGES

Spanish and English (fluent, written and spoken).

PROJECTS

E-Commerce Platform Web Application:

- Developed an e-commerce platform using Angular and Spring Boot, with the backend based on a RESTful API and the frontend done with Angular.
- Utilized Docker for deployment, ensuring easy scalability and portability.
- Collaborated with a team of developers, utilizing Jira management tools and Git for version control to ensure timely completion of project milestones.
- Role: Full Stack Developer and Team Manager
- Source code available at <https://github.com/CodeURJC-DAW-2022-23/webapp5>
